The Equitable Life Assurance Society

OF THE UNITED STATES.

HENRY B. HYDE, President.

THE EQUITABLE SOCIETY,

in 1888, exceeded every other Life Assurance Company in the following important respects: It had

- | | |
|--|---------------|
| 1. The Largest New Business | \$153,933,535 |
| 2. The Largest Amount of Assurance in Force | 549,216,126 |
| 3. The Largest Premium Income | 22,047,813 |
| 4. The Largest Total Income | 26,958,978 |
| 5. The Largest Excess of Income over Disbursements | 10,129,071 |
| 6. The Largest Four Per Cent. Surplus | 20,794,715 |

In selecting a Life Assurance Company, the consideration of chief importance is

SAFETY.

Of the leading Companies, THE EQUITABLE shows the greatest financial strength, having not only the *Largest Surplus*, but also the *highest ratio of Surplus to Liabilities*.

NEXT TO SAFETY, the consideration of chief importance in selecting a Life Assurance Company, is

PROFIT,

and the Equitable shows *larger surplus earnings* than any other Company.

Moreover, no Policies show such profitable returns as those issued on the TONTINE PLAN, a system devised and introduced by the Equitable Society.

PREFACE.

This Fifty-fifth volume of the Newark City and Business Directory appears with increased matter in every department. Within the past twenty years it has increased from 650 to 1,493 pages. Every effort has been made to record matters of interest relative to the City, State and Federal Government, also all names obtainable, though some are purposely withheld to avoid publicity. We wish in this connection to express thanks to those who cheerfully extended information by postal and otherwise.

The City of Newark offers the most superior facilities for manufacturing, being located within twenty minutes of the great centre of trade in New York. It is one of the best governed cities in the Union; the population is increasing, being about 175,000, in every direction improvements are being made, business is active and prosperity abounds.

That Holbrook's Newark City and Business Directory is appreciated as a representative work and medium of information, is evidenced from the letters of inquiry received, relative to various interests of the City and its citizens. To extend its usefulness, it is placed in Hotels, Ocean Steamships, Foreign Exchanges and other important places.

A BUREAU OF INFORMATION has long been established at the Directory office, where a DIRECTORY REGISTER FOR NEW ARRIVALS, AND CHANGES IN BUSINESS AND RESIDENCES MADE THROUGHOUT THE YEAR, is kept for public reference. All are invited to send such changes and arrivals to this office, where information is gladly imparted.

A LARGE COLLECTION OF DIRECTORIES OF PRINCIPAL CITIES is kept for public reference.

The use of the Holbrook name, in canvassing the City for various works and purposes, seriously interferes with the canvass for our own City and Business Directory, citizens frequently refusing information and aid, stating that they have already given it for Holbrook's Directory. All our canvassers have written authority, and none others are Holbrook's. It has often been demonstrated that no city is sufficiently large to support more than one Directory, and every citizen should willingly give information that insures reliability and accuracy to a work so necessary and indispensable.

There are many houses throughout the City, without the numbers required by law; and we append an extract from the City Ordinances:—

"An Ordinance relating to the numbering of houses in the City of Newark." Approved September 2, 1876.

Section 2.—In all cases where any number is or shall be hereafter affixed to any house it shall be the duty of the owner thereof to apply to the City Surveyor for the correct number of said house as the same is indicated on the tax maps of said city, and upon said application the said City Surveyor shall furnish to said applicant the correct number to designate his said property, and the said property owner shall thereupon place and affix to his said house a sign, indicating the number of his said house on the street whereon it is situate in conformity with the street number of said lot, as furnished by the City Surveyor, on which the said house is located.

Section 3.—If any owner of any house erected in the City of Newark shall fail to number or cause to be numbered his house in conformity with the street numbers designated on the tax maps of the City of Newark as aforesaid and the previous provisions of this ordinance, he shall be liable to a penalty of ten dollars, to be collected as in other cases of violations of the ordinances of the City of Newark.

For changes in Assembly Districts and Wards, see Holbrook's City Map.

WANTED.—Copies of Holbrook's Newark City and Business Directory of 1882 issue, containing record of The Newark Industrial Exhibition, at the Directory office.

THE STREETS OF NEWARK.

The streets of Newark, as generally laid out, run a north-easterly and south westerly, and a north westerly and a south easterly course. With rare exceptions do they run true to the compass. A portion of Broad street, from Central avenue to State street, runs direct north and south. Park place, also New Jersey Railroad avenue, directly north-east and south-west. Springfield avenue about east and west. Bloomfield avenue about a north course.

The streets are numbered generally from northerly to southerly, and from No 1 consecutively. Those streets running from a main thoroughfare, either easterly or westerly, are numbered from the main street as their source of beginning.

The streets are of about uniform width—excepting Broad street and Clinton avenue. Broad street, from curb to curb, 92 feet, total width, 189 feet. Clinton avenue same width as Broad street. Market, 59 feet, total, 99 feet. Mulberry 39 feet, 7 inches, total, 66 feet. Washington, 39 feet, 7 inches; total 66 feet.

LOCALITIES ROUND ABOUT NEWARK.

Like as in other cities, custom has divided Newark into localities, and while the city authorities recognize but one name—Newark—to all territory within its boundaries, citizens not only make use of old names, but introduce names that are new, especially so in those sections remote from the central portion of the city. Also, streets and avenues whose names have been changed are still known by their original names, viz

NORTH NEWARK, or Woodside. See Woodside.

WOODSIDE that portion lying in the extreme northern part, northerly of Mt. Pleasant Cemetery, in the Eighth ward, $1\frac{1}{2}$ miles in extent from the Cemetery and $2\frac{1}{2}$ miles distance from centre of city; formerly a township, by act of the Legislature annexed to the City of Newark. On line Broad street and Belleville horse cars.

ROSEVILLE is known as that portion lying in the north-westerly part of the city, west of the Morris canal, between Warren street and Bloomfield

See Appendix for General Information, p. 1249.

avenue, in the Eleventh ward, $1\frac{1}{2}$ miles distant from centre of the city, on line of Orange horse cars and Delaware, Lackawanna & Western Railroad.

WEST NEWARK, that portion lying in the westerly part of the city, westerly of Belmont avenue, between Warren street and Clinton line, in the Eleventh, Ninth and Thirteenth wards, $1\frac{1}{2}$ miles distant from centre of city on line of Irvington, via Springfield avenue and South Orange horse cars.

CLINTON HILL, that portion lying in the extreme south-westerly part of the city, in Fourteenth ward, extending into Clinton township, $1\frac{1}{2}$ miles from centre of city.

CLINTON PLACE, beyond and near the south westerly line of Newark.

VAHANCRO, a settlement westerly of Newark, near city line, on South Orange avenue, $3\frac{1}{4}$ miles from centre of city, on line of N. Orange horse cars.

MANHATTAN PARK, a settlement westerly of Newark, near city line, on S. Orange av., 2 miles from centre of city, on line of N. Orange horse cars.

EAST NEWARK, or **HARRIMON**, lies opposite Newark, east of the Passaic river, in Hudson county, adjoining Kearny township. See Street Guide. The distance, direct line, from Broad, corner Market street, to the Passaic bridge to East Newark, $\frac{3}{4}$ mile. Morris & Essex Railroad depot, $\frac{1}{2}$ mile, to North Second, corner Harrison avenue, 1 mile. North Fifth, $1\frac{1}{2}$ miles. Manor avenue, $1\frac{1}{2}$ miles. Coppermine road, $1\frac{1}{2}$ miles. The distance to Centre street railroad bridge, $\frac{1}{4}$ mile. East Newark Pennsylvania Railroad depot, $1\frac{1}{2}$ miles; Kingsland avenue, $1\frac{1}{2}$ miles.

KEARNY or KEARNY TOWNSHIP opposite Newark and north of Harrison the southerly line of which begins in middle of Passaic river, at Morris & Essex Railroad bridge thence easterly to the easterly line of Passaic avenue thence northerly to centre of New street, thence easterly along Reynolds avenue to a point between Grant and Passaic avenues, thence northerly to a point beyond Mulock place, between Grant and Passaic avenues, thence easterly to a point near Cross, midway between North Third and Fourth streets, thence northerly to and continued beyond the intersection of Erie Railroad and North Fourth street, etc.

THE PERFECTION OF GAS LIGHTING,

Saves More than One-half the Cost of Gas.

Cluster Lights

CANDLE + POWER,

In Effect to the Electric.

THE PERFECTION
OF LIGHT
FOR THE HOME.

Our 1, 2 and 3 Light Generators can be attached to any gas fixture.

AN IMPROVED SYSTEM OF LIGHTING

Churches, Halls, Public Buildings, Stations, Shops, Stores,
AND PRIVATE HOUSES.

By our method of enriching the gas, we are enabled to give *three times the light obtained by burning it the usual way, and to give a soft, steady, white light.*

There are many thousands of them in use in England and on the Continent, and they are being rapidly adopted in this country for every place where a brilliant, steady, pleasing and always reliable light is needed.

Prof. Stephens, A.M., LL.D., of Girard College, Philadelphia, writes: "Regarding candle power, *the carbonized gas is equal to 3.85 times the common gas.*"

The Foye Letter File, Cabinet & Index Co.

ALWAYS READY.

+ CABINETS. +

Having made great improvements recently in our Cabinets, as well as in our Files, they are now considered the most *Complete Cabinet* in the market, possessing the great advantages contained in our *File*, which is acknowledged to be the simplest and most complete File ever offered to the public.

We make Cabinets of all sizes and in any style of wood that may be required.

POINTS: READ AND OBSERVE.

THE FOYE LETTER FILE is acknowledged to be the most complete File in use, possessing important features not contained in any other file in the market. You can operate the *Foye Letter* or *Bill File* with the arm as readily as with the hand, thus giving the perfect freedom of both hands to turn over more rapidly the paper contained there in, and remove the one you want without displacing the others. (See cut above.)

THE FOYE FILE has a *Strong* *Tip and Automatic Springs*, which gives firm pressure, holding *all papers, large or small*, in place, without stopping to *adjust* any springs as in other files.

THE FOYE FILE is made of Black Walnut and has a strong cover, thus protecting its contents from dust, and gives it the privacy of your ledger, when exposed on your desk.

TRANSFER CASES.

Our Improved Patent Transfer or Filing Cases are without exception the best cases ever offered, for the filing away of *papers permanently*. They are made of wood, covered—covered with marble paper, finished like a book on the back, have *two Springs* attached to the lid that holds the papers into their place, so that they cannot become disarranged. The lid is securely-fastened on three sides, so that no dust can get into the papers.

CROTON MILLS

Hecker & Brother, of Croton Mills,
at the World's Fair, London in 1851.

and 1852, for Excellence of Flour

HECKERS'
SELF-RAISING BUCKWHEAT
MANUFACTURED BY
GEO. V. HECKER & CO.
CROTON FLOUR MILLS.

The Self-Raising Buckwheat is an invaluable article for producing, in a few minutes, by the addition of cold water or milk, without the use of yeast, salt, or baking powder, the most wholesome, light and delicious cakes. Dyspeptics and persons who cannot eat Buckwheat Cakes made by the old process, with yeast, can use the Self-Raising Buckwheat without detriment.

The Self-Raising Buckwheat will be found decidedly the cheapest and best, and can be used with much economy of time and trouble. It is fast superseding the old, tedious and uncertain method of raising the batter with yeast.

Patented April 9th, 1878.

JAMES A. COE & CO.

DR. HOLBROOK'S

Classical * and * Military * School,

SING SING, NEW YORK.

REV. D. A. HOLBROOK, A. M. PH. D.,

PROPRIETOR.

From Prof. Dwight, Columbia College Law School, New York

I am well acquainted with Rev. D. A. Holbrook, of Sing Sing, New York. *
* It gives me sincere pleasure to recommend him to public patronage. Possessed of all the soundest and most advanced educational theories, and having a large and successful experience, together with a most cheerful and kindly disposition, he will stand to his pupils in a two-fold relation of teacher and friend.

* * * I shall take every opportunity to express, in the warmest terms, my sense of his fitness for the collegiate education of youth in which he is engaged.
THEODORE DWIGHT.

From Rev. Anson J. Upton, D.D., Auburn, N. Y. :

Rev. D. A. Holbrook has been a very successful teacher for nearly thirty years. I regard him as most admirably adapted to the management and instruction of youth. * * * He embodies in a very uncommon degree, the qualities most valuable in a teacher of boys. He is very kind and sympathetic, in his scholarship he is accurate and earnest, and in his teachings, enthusiastic and thorough. It will be a life-long benefit to any man to have spent his earlier years under Dr. Holbrook's influence and training. I most heartily commend him in all respects to entire confidence.
A. J. UPTON

Office of J. & J. Stuart, Bankers, 33 Nassau St.

NEW YORK, June 18, 1888.

My Dear Doctor — Now that my eldest son has finished his five years' course with you, I cannot refrain from expressing the deep obligation I feel toward The Holbrook Military School. I am more than satisfied with the progress he has made, not only from an educational point of view, but also physically and morally.

My son often expresses himself as deeply sensible of the kindness shown him in the school work, as likewise in the social and homelike life that is possible, but so rare, in a boys' boarding school.

I can only add that if my younger son's life is spared, I hope at the proper age to place him under the same influences that have been so salutary in the case of my oldest boy.

Very sincerely yours,

JOSEPH STUART.

From Prof. E. North, Hamilton College, New York :

Rev. D. A. Holbrook as a teacher and companion to the young is well known and gratefully acknowledged by his former patrons and pupils.

Having chosen teaching as his life work, he gives to it all the resources of a fertile and highly cultivated intellect and all the enthusiasm of a nature eminently social and generous. He was formerly a tutor in college and knowing what constitutes a thorough preparation for college or for business, will faithfully impart to those sons committed to his care.
E. NORTH.

❧ DISINFECTANT. ❧

PREVENTION BETTER THAN CURE.

The Greatest of all known Preventives of Contagious Diseases.

THE ✦ EGYPTIAN ✦ POWDER,

MANUFACTURED BY

H. S. MILLER & CO.,

ON PASSAIC RIVER, - - NEWARK, N. J.

This is no new thing, having been used for many years against almost every Disinfectant known to science, has been found to have no equal as a sure, safe and strong Disinfectant.

AS A DISINFECTANT

It is invaluable in cases of Infectious Diseases, also for the disinfection of Cess Pools, Water-Closets, Drain Pipes, Stables, Slaughter Houses, Marine Vessels Cellars, Saddle Sores Gauls, etc., etc. In fact, it cannot be used amiss in any place that produces foul odors and breeds diseases. If properly applied, it is a great protector of plants against insects.

THE EGYPTIAN POWDER

Is put up in convenient form: its mode of application is simple, though powerful in its action, continuous and lasting, and being a very powerful Disinfectant, but a small quantity is necessary to obtain the desired effect.

A POSITIVE DESTROYER

Of Moth, etc. If a small quantity be placed in a chest, trunk, box or any receptacle wherein Woolen Goods, Furs, etc. are kept, it will be found to be sure death to any moth present, as well effectually preventing others from making their appearance.

THE EGYPTIAN POWDER

Is also a sure exterminator and eradicator of fleas and vermin of all kinds from domestic animals. The price at which these goods are placed upon the market defies all competition. They are within the reach of every citizen, and no one has the right to cast aside so valuable an article.

ELECTION OF PRESIDENT AND VICE-PRESIDENT OF THE UNITED STATES BY THE ELECTORAL COLLEGE.

"The voters elect in the several States as many persons as there are members of Congress, known as Electors. These electors meet at the State capitals upon a fixed day and cast the electoral vote of the State for President and Vice-President. Copies of this vote are sent by messenger to the United States Secretary of State and to the President of the United States Senate, and opened and counted at a joint meeting of both houses of Congress in February following the election. The persons receiving the majority of the electoral votes for the two offices are declared duly elected President and Vice-President of the United States for four years from the ensuing 4th of March. In case no party has a majority of the electoral vote, the election is made by the House of Representatives alone, each State casting one vote, which is controlled by a majority of the Electors, and a majority of all the States is necessary to a choice."

No Senator or Representative, or person holding an office of trust or profit under the United States is eligible for an Elector.

NEWSPAPERS.

Newspapers, when sent by publishers or newsdealers to subscribers, must be prepaid at the mailing office, at the following rates: 1 cent per pound. When sent by others than publishers and newsdealers, 1 cent for each 4 oz. or fraction thereof.

County newspapers free—providing publication office and subscribers are in the same county.

Prepayment on all printed matter compulsory.

Sample cards, cards and other flexible material, blanks, blank paper, engravings, envelopes, seeds, scions (except circulars and books), are rated at 1 cent for every 1 ounce, or fraction thereof, prepaid. None forwarded unless prepaid.

Manuscripts, when accompanied by proof sheets, 1 cent each 2 ounces.

Postage on books, not exceeding 2 ounces (prepaid), 1 cent, and for each additional 2 ounces, or fraction thereof, 1 cent. (Weight limited to 4 lbs.)

Unsealed circulars, for city delivery, 1 cent each 2 ounces, or fraction thereof; must contain no writing or figures.

All communications addressed to Postmasters must be prepaid; and if a reply is required, stamps for return postage must be included. Prepayment in all cases is compulsory.

Money Orders—Office open from 8 A.M. to 6 P.M.; Saturdays, 5 P.M. Orders within the United States, not exceeding \$5, 5 cents; \$10, 8 cents; over \$10 and not exceeding \$15, 10 cents; over \$15 and not exceeding \$30, 15 cents; over \$30 and not exceeding \$40, 20 cents; over \$40 and not exceeding \$50, 25 cents; over \$50 and not exceeding \$60, 30 cents; over \$60 and not exceeding \$70, 35 cents; over \$70 and not exceeding \$80, 40 cents; and \$80 to \$100, 45 cents. These rates took effect Oct. 1, 1883.

A single money order may include any amount from one cent to one hundred dollars, inclusive, but must not contain a fractional part of a cent.

The issue to a single applicant, in one day, of more than three orders, payable at the same office and to the same payee, is positively forbidden.

The applicant must, in all cases, write his own given name and surname in full. When the given name of the payee is known it should always be stated in full, otherwise, initials may be used. The given names of married women must be stated, and not those of their husbands. For example Mrs. "Mary" Brown must not be described as Mrs. "William" Brown.

Names of parties, places and streets, as well as numbers and amounts, should be written in full and in the plainest manner possible. A money order must not be made payable to more than one person or firm.

As there are several post offices of the same name in the United States, an applicant for an order payable at one of such offices must be careful to indicate clearly which one of them he means; and the postmaster will satisfy himself, before writing out the order, that the office indicated is the one intended.

Fees on all International Orders are as follows: On orders not exceeding \$10, 10 cents; over \$10 and not exceeding \$20, 20 cents; over \$20 and not exceeding \$30, 30 cents; over \$30 and not exceeding \$40, 40 cents; over \$40 and not exceeding \$50, 50 cents. These rates took effect January 1, 1886.

No fraction of cents to be introduced in an order.

United States Treasury notes or National Bank notes only received or paid.

Post Money Orders, for sums not exceeding \$100 each order, can be obtained at the principal offices throughout the country. The use of these orders by persons who desire to make remittances by mail is far preferable to sending money, even when the letter containing it is registered. By the money order system absolute security against loss is obtained. Money orders are good for one year from the date of issue. In case of their loss, no charge is made for the issuing of duplicates. Persons sending money orders should be careful never to send them in a letter which contains the name of the person from whom they are sent. This is necessary in order to guard against loss in case the letter should fall into improper hands, money orders never being paid to any person who cannot tell the name of the party to whom they were issued.

Postal notes, for the transmission of small sums; under five dollars (from 1c to \$4.99), on which a fee of three cents shall be charged, have been issued since 1883.

The Post Office Department having provided perfect safety for the transmission of small sums of money, by Money Order or Registered Letter, the public can expect but little sympathy for money lost, if sent through the mails in any other way.

The Home is in no sense like a prison, but the intent is to make it what its name implies, a "home" for wayward children.

Its object is to afford to the youth of this city and vicinity a complete and thorough course of study, as a preparation for the College, the Scientific School, or for business life. The Primary Department prepares pupils for the higher classes, so that a boy may enter the Academy at the very commencement of his school course, and finish there his entire preparation.

There are two courses of study, the Classical and the Scientific, each extending through four years. Pupils finishing satisfactorily either of these courses are entitled to the diploma of the Academy. NEWARK INDUSTRIAL INSTITUTE.

Office, 15 Mechanic Street.

Chartered March 21, 1873. Capital, \$150,000.

This chartered institution was the outgrowth of the Newark Industrial Exhibition of 1872, through which the name of Newark, as a great manufacturing city, was made known throughout the world. By this exhibition it was demonstrated that Newark possessed an abundant variety of manufactures to hold an exhibition exclusively of its own products, which no other city in the world had attempted. Its success was pre-eminent—netting a surplus of 10 per cent. Value of exhibits, \$900,000; its visitors, 115,000—among them President U. S. Grant, Gen. W. T. Sherman, and others of the highest dignitaries of the nation. Exhibitions were held in 1873, 1874 and 1875, but were suspended in 1876, owing to the draft upon our manufacturers by the Centennial Exhibition at Philadelphia.

Placed in your Store, Factory or Residence. You need not leave your building, thereby saving much valuable time in going to the street box, finding the key and unlocking it to send the alarm.

It is as Convenient as the Telephone, always ready, day or night..

**On the breaking out of a fire, every moment of time is
valuable, and by having**

THE LITTLE AUXILIARY FIRE ALARM BOX

**On your premises, an alarm can at once be sent out ANY TIME OF
NIGHT OR DAY, without hindrance from STORM
or any cause whatever.**

THE AUXILIARY ELECTRICAL FIRE ALARM connects your premises by wire, with the street Box, thus bringing the street Box under your control for immediate use in bringing the Fire Department.

It is Safe, Convenient and Reliable in Case of Fire.

ANYONE CAN OPERATE IT BY PULLING A SMALL RING.

IT IS NOW ON EXHIBITION AT

THE ELECTRIC Auxiliary Fire Alarm

is like a well-filled purse—always at your command. In your Factory, day or night, it is a faithful servant. In your home it is like the good watch dog, affording a sense of security at all hours. When away from your home or factory the thought that in case of fire your wife or employes can alarm the Fire Department in one second is a great source of relief to the good man and the careful merchant or manufacturer.

It is Small, Compact and always in Good Order.

FORTY YEARS SOUGHT FOR!

No Soot! No Clinker! No Gas! No Nuisance!

THE GREENE

Soft Coal Cooking Stove!

This New Stove consumes all varieties of Bituminous Coal without forming Clinkers, Making Soot, Creating Gas or Nuisance of any kind, and is especially adapted to burn Slack Coal or Culm, Wood, Corn or Corncoals perfectly. It is a good COOKER, BAKER and BROILER; Quick in Operation and possesses the merit of GREAT ECONOMY. In fact, it is perfection in the way of a Cooking Stove. It is easily cared for—the grate is never dumped, no ashes to sift nor clinkers to remove, is cleanly in its operations, and of GREAT DURABILITY.

THE ANNEXED TESTIMONIAL IS ONE OF THE MANY RECEIVED.

From H. S. Chamberlain, Esq., President of the Reane Iron Company.

CHATTANOOGA, TENN., Jan'y 11, 1886.

gentlemen

Hearing the Greene Stove highly spoken of as being very economical in fuel, and satisfactory for family use, I some months since procured a No. 9 Cooking Stove of this pattern, and after thorough trial find it even better than I had expected. I have tested it carefully with all sorts of coal found in this section, including the Tennessee, Dado, Soddy, Knoxville, Daisy and Rockwood, and find that any of these can be burned, either fine or coarse, without clinker and with very great satisfaction. It is so emphatically a smoke consumer, in which all gases usually wasted up the chimney are utilized, and in point of economy I am within the mark when I say the amount of coal consumed for ordinary cooking and other kitchen purposes is less by one half than in any other stove with which I am acquainted in the market. Its cooking qualities are supremely excellent. It is the only soft coal burner known to me which can be used pleasantly and economically in the kitchen, and being quickly heated and as free from dust and dirt as a wood stove must, as soon as its merits are known, take the place of all other varieties. I am very glad to say this much for your stove, as it is gratifying to see an effort to apply valuable scientific principles in household economics meet with such merited success.

I am, very truly yours,

H. S. CHAMBERLAIN

This stove meets a want long felt in those regions where Bituminous Coal is a prevailing fuel. As this important invention, covering the Eastern and Western Continents, is the property of a Newark Company, Citizens having friends in the Bituminous Coal burning regions are invited to apply to the Company for Circulars and Testimonials, and thus extend the knowledge of this Newark Industry.

Desire to call the attention of users of steam to a few of the merits and advantages of this valuable invention:

It will Save from 20 to 40 per cent. of fuel

It will increase Boiler Capacity 25 to 50 per cent.

The Circulation is positive and rapid

Thus generating a pure dry steam.

Prevents Scaling, Blistering and Explosions.

Saves time and labor by keeping boilers clean

It insures equal expansion and contraction

Requires no valves. No attention. Is easily applied.

Simple in construction. The most effective in use.

We have in our office a working model by which we demonstrate our claims, and we cordially invite all interested to investigate.
